Cumulative Index for 1974

ACOUSTIC NEUROMA, facial nerve and, June, 393
facial paralysis and, June, 326
hypoglossal-facial nerve anastomosis in, June, 535
Acoustic tumor surgery, facial nerve in, June, 457–460
facial nerve function in, postoperative, June, 459–460
Acrylic denture materials, allergic stomatitis with, October, 834
Addiction, food, allergy and, October, 622
food allergy and, October, 817–824
Adenoiditis, acute, treatment for, October, 915
Adenoids and tonsils, diseases of, classification of, October, 914–915
culture in, October, 921
host factors and, October, 919
infections of, treatment for, October, 909–925
Adenotonsillectomy, in recurrent infections, October, 916
Aging, immune system and malignancy and, October, 860
Albers-Schönberg disease, of temporal bone, facial paralysis and, June, 328
Alcohol abuse, immunosuppression in cancer patient and, October, 878
Allergenic extracts, standardization of, October, 586–587
Allergens, contact, erosive or ulcerative stomatitis with, October, 838
Allergic child, tonsils and adenoids and, October, 693
Allergic disorders, cytologic diagnosis in, October, 637–666
pulmonary secretions in, cytologic diagnosis and, October, 657–658
Allergic headaches, classification of, October, 795–801
diagnosis of, October, 794
food allergy and, October, 789
prognosis in, October, 793
sensitization in, October, 789–792
Allergic headaches (*Continued*)
symptomatology of, October, 792–793
treatment in, October, 91–802
Allergic patient, examination and treatment in, October, 671 674
rhinoplasty procedures and, October, 845–857
Allergic response, cytologic features of, October, 644
Allergic rhinitis, antigenic causes of, October, 704
dust as cause of, October, 705
environment and, October, 710 et seq.
seasonal, diagnosis of, October, 706
symptoms of, October, 703–704
treatment in, October, 709
Allergic stomatitis, systemic reactions and, October, 840–842
Allergy, and refractory otorhinolaryngology patient, February, 145–151
as specialty, beginnings of, October, 570
chemical, respiratory allergy and, October, 732
chronic, involving larynx, October, 721
diagnostic techniques in, immunology and, October, 885–908
food. See *Food allergy.*
gastrointestinal, symptoms and physical findings in, October, 684
headache and, February, 149
in geriatric patients, October, 700
inhalant, hyposensitization in treatment of, October, 691
serial dilution titration tests in, October, 579–615
skin testing in, October, 587–608. See also *Skin testing.*
involving ears, February, 146–148
involving nose, February, 148–149
management of, specific, October, 727–733
nasal cytologic diagnosis and, October, 638–645
nasal polyposis and, October, 694

Allergy (*Continued*)
neurological and psychiatric aspects of, October, 805–826
diagnostic considerations in, October, 816–817
of respiratory tract, symptoms and physical findings in, October, 682
otolaryngologic, history in, October, 685
laboratory studies in, October, 686
regional treatment of, October, 681–702
symptoms and physical findings in, October, 682–685
otolaryngologic regional, history of, October, 569–577
immunologist-allergist school and, October, 575
pediatric, in otorhinolaryngology, February, 146
practice of, surgical otolaryngologic practice and, October, 667–680
surgery in, October, 692–695
testing methods in, in otorhinolaryngology patients, February, 150–151
Allergy practice, preparation for, October, 668–670
Allergy testing, in candidates for rhinoplasty, October, 846–852
Allergy treatment, solutions and syringe technique in, October, 670–671
Alpha-fetoprotein, immunodiagnosis of cancer and, October, 867
Ammonium compounds, quaternary, allergic reactions to, October, 837
Anaphylaxis, response to immune injury and, October, 584
Anaplastic carcinoma, of thyroid, recurrence of, February, 167
Anastomosis, hypoglossal-facial. See *Hypoglossal-facial anastomosis.*
indirect, of facial nerve, June, 480
neural-facial, facial rehabilitation and, June, 487
Anesthesia, for rhinoplasty, in allergic patients, October, 853
immunosuppression in cancer patient and, October, 876
in dental surgery, allergic stomatitis and, October, 837
in revision otoplasty, February, 137
topical, allergic stomatitis with, October, 831–832
allergy to, testing of nasal mucosa for, October, 831
Angioneurotic edema, of larynx, October, 719
Animal tumor antigens, as evidence for immunologic response to malignancy, October, 864
Anise oil, cheilitis with, October, 839
Antibody aggregates, response to immune injury and, October, 584
Antibody response, tumor antigens and, October, 868
Antigen recognition cells, of specific immune system, October, 893
Antigens, and immunogens, clinical characteristics of, October, 581–583
animal tumor, as evidence for immunologic response to malignancy, October, 864
human tumor, in adenocarcinoma of colon, October, 865
"sets" and, preparation and mailing of, October, 674
tumor, antibody response and, October, 868
cellular response to, October, 868
Antisocial behavior, allergy and, October, 812
Apraxia, motor, in facial paralysis, June, 416
Arthritis, of cervical spine, persistent vertigo and, February, 26
Aspirin intolerance, diagnosis of, October, 716–717
Asthma, bronchial, symptoms and management of, October, 725
Atopic otitis, diagnosis and treatment of, October, 741
Audiologic studies, in persistent vertigo, February, 25
Auditory system, facial nerve surgery and, June, 439
Aural secretions, cytologic study of, in allergic disorders, October, 658–664
Auricle, reprotrusion of, following otoplasty, February, 133
Auricular nerve, great, in facial nerve grafting, June, 519
Autonomic phenomena, allergy and, October, 811
Axonotmesis, of peripheral nerve, June, 313

BACTERIAL INFECTION, mastoid cavity drainage and, February, 43
nasal cytologic diagnosis in, October, 656
Bell's palsy, diabetes mellitus and, June, 400
electrodiagnostic studies in, June, 365
experimental, October, 784
facial nerve decompression in, surgical approaches to, June, 513–515
facial nerve paralysis and, June, 318
in children, June, 435
incidence, etiology, and medical treatment of, June, 357–368

Bell's palsy (*Continued*)
medical treatment of, results of, June, 363–366
pathogenesis of, October, 783
recurrent, June, 407–409
residua of, June, 367
sudden, etiology of, June, 359–363
surgery in, June, 365, 511–515
Bleeding, as complication of stapedectomy, February, 19
following cryosurgery, in cancer of head and neck, February, 200
Bleomycin, in recurrent cancer of head and neck, February, 206
Blepharoplasty, and face lift operations, complications in, February, 87–105
complications of, February, 97–105
preoperative examination in, February, 88–89
Blindness, following blepharoplasty, February, 104
Blink reflex, in facial paralysis of central origin, June, 419
Block, cervical sympathetic, in Bell's palsy, June, 366
stellate ganglion, in herpes zoster oticus, June, 372
Boeck's sarcoidosis, facial paralysis and, June, 402
Brain syndrome, organic, allergy and, October, 812
Bronchial asthma, in children, diagnosis and management of, October, 725
symptoms and management of, October, 725
Bronchial tree, allergy of, October, 725–727
trachea, and larynx, allergy of, October, 719–734
Bronchitis, chronic, and tracheitis sicca, following laryngectomy, February, 241
Bryan leukocyte cytotoxicity food test, clinical use of, October, 730
in allergic rhinitis, October, 706
in food allergy, October, 626

CANCER. See also *Neoplasm, Tumor(s)*, and specific tumors.
dissemination of, mechanisms of, February, 176–177
of head and neck, postoperative persistent, radiotherapy in, February, 175–192
radiation therapy in, principles of, February, 176
recurrent, cryosurgery in, February, 193–204
philosophy of treatment in, February, 153–161
surgical management in, February, 163–174
Cancer (*Continued*)
of neck, recurrence of, without recurrence in larynx, February, 173
of thyroid. See also *Thyroid.*
local recurrent, surgical management in, February, 164
surgical management of, February, 163–167
recurrence of, following total laryngectomy, February, 173
Cancer patient, immunologic aberrations in, October, 869–871
immunoprognosis in, October, 871–876
Cancer therapy, inadvertent immunosuppression in, October, 876–878
Carcinoembryonic antigen, gastrointestinal carcinoma and, October, 866
Carcinoma, anaplastic, of thyroid, recurrence of, February, 167
cordal, of larynx, local recurrence of, February, 172
medullary, of thyroid, recurrence of, February, 167
nasopharyngeal, immunologic aspects of, October, 867
of tongue, recurrent, surgical management of, February, 170
recurrence of, following partial laryngectomy, February, 172
"unrecognized," of thyroid, February, 166
verrucous, of cheek, February, 173–174
Cardiovascular disease, persistent vertigo and, February, 26
Cassia oil, cheilitis with, October, 839
Cat, facial nerve in, spacial localization of nerve fibers within, June, 552–556
Cauda helicis, management of, February, 141–142
Cephalgia, allergic. See *Allergic headaches.*
Cerebellar phenomena, allergic aspects of, October, 809
Cerebellum, tumors and cerebrovascular accidents involving, persistent vertigo and, February, 31
Cerebrovascular accidents, involving cerebellum, persistent vertigo and, February, 31
Cervical spine, arthritis of, persistent vertigo and, February, 26
Cervical sympathetic block, in Bell's palsy, June, 366
Cheilitis, allergic, and stomatitis, therapy with, October, 841–842
allergic contact, clinical aspects of, October, 838–840
contact stomatitis, and glossitis, symptoms and signs of, October, 827–828
Chemical allergy, respiratory allergy and, October, 732
Chemicals, sensitivity to, diagnosis of, October, 679–680

Chemotherapy, immunosuppression in cancer patient and, October, 877
in recurrent cancer of head and neck, February, 205–215
intra-arterial, in recurrent cancer of head and neck, February, 212–213
systemic, in recurrent cancer of head and neck, February, 206–212
Child, allergic, tonsils and adenoids and, October, 693
Children, Bell's palsy in, June, 435
bronchial asthma in, diagnosis and management of, October, 725
facial nerve paralysis in, June, 433–436
hypersensitivity in, October, 810
idiopathic facial paralysis in, June, 435
insomnia and somnolence in, allergic aspects of, October, 809
Cholesteatoma, congenital, facial nerve and, June, 390
following pedicle flap obliteration of mastoid cavity, February, 49
persistent vertigo and, February, 29
primary, of temporal bone, facial paralysis and, June, 327
recurrent, drainage from mastoid cavity and, February, 42
Chrome-cobalt combinations, allergic stomatitis with, October, 834
Cinnamon oil, cheilitis with, October, 839
Clove oil, cheilitis with, October, 839
Cochleovestibular disorders, allergy and, October, 757–780
histamine in, October, 763–766
Cold, common, columnar epithelium in, ultrastructural aspects of, October, 653
cytochemistry in, October, 648
cytologic diagnosis in, October, 646–657
Columella, retraction of, following rhinoplasty, February, 74
Concussion, of labyrinth, persistent vertigo and, February, 27
Congenital abnormalities, facial nerve paralysis and, June, 423, 433–434
of ear, embryologic considerations in, June, 505
Congenital ear surgery, facial nerve in, June, 505–510
Contact allergens, erosive or ulcerative stomatitis with, October, 838
Contact allergy, of oral mucosa, direct testing of, October, 830
Contact otitis, diagnosis of, October, 736
treatment of, October, 739
Contact stomatitis, glossitis, and cheilitis, symptoms and signs of, October, 827–828
Copper, allergic stomatitis with, October, 834
Corneal sensitivity, with facial paralysis, June, 532
Corneomandibular reflex, in facial paralysis, of central origin, June, 418
Corticobulbar paths, tumors of, facial paralysis and, June, 422
Cortisone, in herpex zoster oticus, June, 371
Cosmetic surgery, revision of, medicolegal considerations in, February, 60–63
philosophical considerations in, February, 57–64
Cranial nerves, allergy and, October, 781–787, 815
Cross-face nerve transplantation, June, 527
Cryosurgery, in cancer of head and neck, clinical results with, February, 202–203
complications of, February, 200–202
postoperative care in, February, 199–200
recurrent, February, 193–204
principles of, February, 193–195
selection of patients for, February, 196–197
technique of, February, 198–199
Cupulolithiasis, persistent vertigo and, February, 30
Cylindroma, of salivary glands, recurrence of, surgical management in, February, 170
Cysts, incisional, following blepharoplasty, February, 104
Cytologic diagnosis, in allergic disorders, October, 637–666
nasal, allergy and, October, 638–645
Cytolysis, response to immune injury and, October, 584
Cytosine arabinoside, in recurrent cancer of head and neck, February, 210
Cytotoxic test, in food allergy, October, 626

DACRYOCYSTITIS, following ablative surgery, February, 218
Decompression, surgical, in herpes zoster oticus, June, 372
Dental impression material, allergic stomatitis with, October, 835
Dental surgery, anesthetics in, allergic stomatitis and, October, 837
Dentifrices, and dental procedures, cheilitis with, October, 839
and mouthwashes, sensitizers in, October, 830–831
Denture adherent preparations, allergic stomatitis with, October, 836

Denture sore mouth, yeasts and, October, 836
Dentures, allergic stomatitis with, October, 834–836
Depression, allergy and, October, 812
Diabetes mellitus, Bell's palsy and, June, 400
peripheral facial paralysis and, June, 399
with malignant external otitis, treatment in, June, 381
Dichlorophene, allergic reactions to, October, 836
Diet, elimination, in food allergy, October, 626
in food and inhalant allergy, October, 690
Rowe, in food allergy, October, 730
rotary diversified, in food allergy, October, 630, 675
Dinitrochlorobenzene skin testing, cellular immunity in cancer patient and, October, 871
in evaluation of immunocompetence, October, 875
Diplopia, following ablative surgery, February, 218
following blepharoplasty, February, 105
Dislocation, incudal, as complication of stapedectomy, February, 16
Dizzy patient, surgery for, February, 8–9
Dott procedure, in intracranial facial nerve surgery, June, 486
Drooling, following ablative surgery, February, 223
Drug reactions, fixed, diagnosis and treatment of, October, 742
Drug therapy, persistent vertigo and, February, 30
Dura, middle and posterior fossa, facial nerve surgery and, June, 440
Dust, as cause of allergic rhinitis, October, 705
Dysphagia, and esophageal stricture, following laryngectomy, February, 241
Dysplasia, temporal bone, facial paralysis and, June, 328
Dystonic posturing, in facial paralysis of central origin, June, 417

EAR(S), allergy involving, February, 146–148
congenital defects of, embryologic considerations in, June, 505
radiologic evaluation in, June, 508
surgical approach in, June, 509
external, allergy of, October, 735–748
middle, and eustachian tube, allergy of, October, 749–755
Ear lobe, deformity of, following face lift, February, 96
Ear surgery, aims of, February, 6
for infections, February, 3 et seq.
modern, philosophy and aims of, February, 3–12
Ectropion, following blepharoplasty, February, 102
of lower lid, following facial paralysis, June, 532
Eczematoid otitis, infectious, diagnosis of, October, 744
treatment of, October, 746
Edema, chronic, following face lift, February, 96
food allergy and, October, 720
laryngeal, as allergic reaction, October, 719
Elderly patients, allergy in, October, 700
Electrogustometry, in facial nerve lesions, June, 334
Electromyography, in Bell's palsy, June, 365
in facial paralysis, June, 340
of central origin, June, 420
Electronystagmography, in persistent vertigo, February, 25
Electrophysiologic studies, in facial paralysis of central origin, June, 420
Elimination diets, in food allergy, October, 626
in food and inhalant allergy, October, 690
Emotional immaturity, allergy and, October, 812
Enophthalmos, following ablative surgery, February, 218
Environment, immunologic system and, October, 886
immunologically mediated disease and, October, 901
Environmental control, in food allergy, October, 624
Epileptoid reactions, allergy and, October, 810
Epiphora, following ablative surgery, February, 218
following blepharoplasty, February, 104
Epitympanic area, facial nerve paralysis and, June, 317
Esophagus, cervical, resection of, swallowing and, February, 238
stricture of, and dysphagia, following laryngectomy, February, 241
Ethylenediamine hydrochloride, allergic reactions to, October, 837
Eugenol, cheilitis with, October, 839
Eustachian tube, and middle ear, allergy of, October, 749–755
surgery involving, February, 11

Eye. See also *Ocular.*
loss of, following ablative surgery, for tumors of paranasal sinuses, February, 217
management of, in facial paralysis, June, 531–544.
Eye drops and ointments, with facial paralysis, June, 533
Eyelid, suturing of, with facial paralysis, June, 534
taping of, with facial paralysis, June, 533
Excision, serial, in scars of head and neck, February, 124
Experimental facial paralysis, June, 551–560
Extracanalicular tumor, radiologic assessment of, June, 346

FACE LIFT, and blepharoplasty, complications in, February, 87–105. See also *Blepharoplasty.*
drainage following, February, 94
regional, following facial paralysis, June, 491
incisions in, February, 89–91
secondary surgery and, February, 96
Facial-hypoglossal anastomosis, in Bell's palsy, June, 366
Facial muscles, electrical stimulation of, in Bell's palsy, June, 366
Facial nerve, anatomy of, June, 461–462, 493–499
surgical, June, 289–308
cisternal portion, radiologic assessment of, June, 343
course and relationships of June, 289–300
anomalies in, June, 311, 462
intratemporal, June, 309
radiologic assessment of, June, 344–355
decompression of, following experimental trauma, June, 556
excitability of, in facial paralysis, June, 338
function of, diagnostic tests of, June, 331–342
grafting of, consequences of, experimental implications of, June, 554
identification of, in acoustic tumor surgery, June, 458
in cat, spacial localization of nerve fibers within, June, 552–556
injury to, extratemporal, repair of, June, 467–492
following face lift, February, 94
temporal bone fractures and, June, 425–431
traumatic, June, 484–485

Facial nerve (*Continued*)
isolation of, in acoustic tumor surgery, June, 458–459
lesions of, determination of site of, June, 331–338
neoplasms of, June, 385–396
radiologic assessment of, June, 343–355
surgery of, February, 9–10
surgical exposure of, June, 437–455. See also *Facial nerve surgery.*
Facial nerve canal, radiologic assessment of, June, 347–355
Facial nerve surgery, combined transmastoid-middle cranial fossa approach in, June, 448
intracranial, June, 485–487
middle cranial fossa approach in, June, 442
principles of, June, 438–439
retrolabyrinthine approach in, June, 450
structures at risk in, June, 439–440
transcanal transtympanic approach in, June, 440
translabyrinthine approach in, June, 452
transmastoid approach in, June, 441
Facial nucleus, and supranuclear connections, anatomy of, June, 411–414
blood supply of, June, 414
Facial paralysis, anatomical considerations in, June, 309–313
central, June, 411–424
characteristics of, June, 414–415
experimental, June, 551–560
following head and neck surgery, February, 247–248
herpes zoster oticus and, June, 369–373
idiopathic, June, 318–321, 435
in children, June, 433–436
idiopathic, June, 435
in middle ear surgery, June, 462–464
malignant external otitis and, June, 375–383
metabolic change and, June, 397–402
nerve involvement in, physiological extent of, June, 338–341
ocular problems following, June, 531–532
of surgical origin, June, 316–318
otologic, pathophysiology of, June, 309–330
peripheral, systemic disease and, June, 397–405
postoperative, June, 502–503
primary, June, 321–323
secondary, June, 323–328
sudden, etiology of, June, 358–359
Facial posture, abnormalities of, in facial paralysis, June, 416–420

Facial recess, facial nerve paralysis and, June, 317
surgical approach to, June, 499–502
Facial weakness, following Bell's palsy, June, 367
Faciofacial grafting, June, 527
Fallopian canal, radiologic assessment of, June, 347–355
Fifth nerve involvement, with facial paralysis, June, 532
Fistula, formation of, following cryosurgery, in cancer of head and neck, February, 201
of oval window, as complication of stapedectomy, February, 21
persistent vertigo and, February, 28
oroantral, postsurgical, radiologic diagnosis of, February, 262
Fixation, incudomalleolar, as complication of stapedectomy, February, 16
Flavors, artificial, and food coloring, food allergy and, October, 822
"Floating" footplate, following stapes surgery, persistent vertigo and, February, 29
Fluctuant hearing loss, in cochleovestibular disorders, October, 759
5-Fluorouracil, and vinblastine, in recurrent cancer of head and neck, February, 210
Food addiction, allergy and, October, 622
Food allergy, adaptation in, October, 618 et seq.
allergic headaches and, October, 790
avoidance program in treatment of, October, 628
central nervous system reactions in, October, 818
diagnosis of, October, 624–628, 675–679, 706
dynamics, diagnosis, and treatment of, October, 617–635
enzymatic-acid-hypoxia-endocrine theory of, October, 631
food addiction and, October, 817–824
history in, October, 627
in otolaryngology, October, 697–701
laryngeal edema and, October, 720
nature and problem of, October, 698
rotary diversified diet in, October, 630
Rowe elimination diet in, October, 730
treatment in, October, 628–632, 731, 823
types of, October, 729
Food coloring, and artificial flavors, food allergy and, October, 822
Food diary, in food allergy, October, 631, 820
Food ingestion test, Rinkel, in food allergy, October, 625
Food sensitization, responses to, October, 699
Foods, cheilitis with, October, 840
Fracture(s), in intratemporal course of facial nerve, radiologic assessment of, June, 344
midfacial, malaligned, revision surgery of, February, 107–117
nasal, depressed, revision surgery in, February, 109
of maxilla, revision surgery in, February, 112–116
of temporal bone, facial nerve injury and, June, 425–431
facial paralysis and, June, 325
persistent vertigo and, February, 27
transverse, facial nerve injury and, June, 425–427
of zygomaticomaxillary complex, revision surgery in, February, 110–112
Frey's syndrome, following neck dissection, February, 245–247
Fungous infections, nasal cytologic diagnosis in, October, 656

GASTROINTESTINAL ALLERGY, symptoms and physical findings in, October, 684
Geriatric patients, allergy in, October, 700
Glands, salivary. See *Salivary glands.*
Glasses, protective, with facial paralysis, June, 534
Glomerulonephritis, response to immune injury and, October, 584
Glomus tumor, facial nerve and, June, 389
facial paralysis and, June, 327
Glossectomy, total, swallowing and, February, 236
Glossitis, contact stomatitis, and cheilitis, symptoms and signs of, October, 827–828
Gold, allergic stomatitis with, October, 834
Grafting, of facial nerve, June, 517–529
extratemporal, June, 521
faciofacial, June, 527
intracranial, June, 525
intratemporal, June, 521
nerve suture in, June, 517–519
rehabilitation and, June, 477–484
Granuloma, as complication of stapedectomy, February, 21
eosinophilic, facial nerve and, June, 390
of oval window, persistent vertigo and, February, 29
postauricular, following otoplasty, February, 135
reparative, of vestibule, as complication of stapedectomy, February, 20

Granulomatosis, Wegener's, facial paralysis and, June, 401
Guillain-Barré syndrome, facial nerve paralysis and, in children, June, 434
pathogenesis of, October, 782
Gustatory sweating, following neck dissection, February, 245–247

HAIR LOSS, following face lift, February, 94
Hansel optimal dosage method, in treatment of inhalant allergy, October, 691
Hansel stain, in allergic rhinitis, October, 706
in allergy testing, in otorhinolaryngology patients, February, 150
Head and neck, ablative surgery of, physiologic problems following, February, 217–250
cancer of, postoperative persistent, radiotherapy in, February, 175–192
recurrent, cryosurgery in, February, 193–204
philosophy of treatment in, February, 153–161
surgical management in, February, 163–174
scars of, revision of, February, 119–131
surgical principles in, February, 120–123
techniques in, February, 123–130
tumors of, immunologic considerations in, October, 859–883
Headache(s), allergy and, February, 149. See also *Allergic headaches*.
psychiatric and neurological aspects of, October, 807
vascular, allergic aspects of, October, 798
Hearing, and vestibular function, loss of, following temporal bone resection, February, 247
restoration of, following revision surgery of mastoid cavity, February, 51
surgery and, February, 7–8
tumors involving, surgery in, February, 10–11
Hearing loss, fluctuant, in cochleovestibular disorders, October, 759
neural, surgery in, February, 11
sensorineural, as complication of stapedectomy, February, 20
Hearing mechanism, status of, in temporal bone fracture with facial nerve injury, June, 428
Heat, stomatitis due to, October, 828
Hematoma, following blepharoplasty, February, 97
Hematoma (*Continued*)
following face lift, February, 92
Hemorrhage, following cryosurgery, in cancer of head and neck, February, 200
following stapedectomy, February, 19
Herpes simplex virus, squamous cell tumors of head and neck and, October, 867
Herpes zoster, facial nerve paralysis and, in children, June, 434, 435
Herpes zoster oticus, facial nerve paralysis and, June, 321, 369–373, 402, 423
medical management in, June, 371
Hexachlorophene, allergic reactions to, October, 837
Histamine, in cochleovestibular disorders, October, 763–766
Hodgkin's disease, cellular immunity in, October, 869
Human tumor antigens, in adenocarcinoma of colon, October, 865
Hydroxyurea, in recurrent cancer of head and neck, February, 211
Hyomandibular complex, resection of, swallowing and, February, 236
Hyperacusis, allergy and, October, 815
Hypersensitivity, delayed, response to immune injury and, October, 585
immediate, tests of, October, 904
in children, October, 810
otolaryngologic allergy and, October, 694
Hypertension, persistent vertigo and, February, 26
Hypoglossal-facial anastomosis, surgical technique for, in facial paralysis, June, 546–549
timing of, in facial paralysis, June, 545–546
with facial paralysis, June, 535, 545–550
Hypoparathyroidism, following thyroidectomy, February, 245
Hyposensitization, in treatment of inhalant allergy, October, 691
Hyposmia, following ablative surgery, February, 221
Hypotension, postural, persistent vertigo and, February, 27
Hypothyroidism, facial paralysis and, June, 397
following thyroidectomy, February, 245

ID REACTION, diagnosis and treatment of, October, 743
Incisional cysts, following blepharoplasty, February, 104

Incudal dislocation, as complication of stapedectomy, February, 16
Incudomalleolar fixation, as complication of stapedectomy, February, 16
Incus, necrosis of, as complication of stapedectomy, February, 18
Infection, bacterial, mastoid cavity drainage and, February, 43
nasal cytologic diagnosis in, October, 656
following blepharoplasty, February, 104
following face lift, February, 94
following otoplasty, February, 135
fungous, nasal cytologic diagnosis in, October, 656
middle ear, facial paralysis and, June, 323–325
nasal, following ablative surgery, February, 219
of ear, elimination of, February, 6–7
surgery for, February, 3 et seq.
of nervous system, facial paralysis and, June, 423
of tonsils and adenoids, treatment for, October, 909–925
with fracture of temporal bone, and facial nerve injury, June, 428
Inflammation, of adenoids and tonsils, treatment for, October, 916
of oral mucosa, symptomatic treatment of, October, 829–830
Inflammatory processes, facial nerve paralysis and, in children, June, 434
Influenza vaccine, in allergic tracheitis, October, 724
Inhalant allergy, hyposensitization in treatment of, October, 691
serial dilution titration tests in, October, 579–615
skin testing in, October, 587–608. See also *Skin testing.*
treatment in, with skin testing, October, 608–613
Inheritance, Bell's palsy and, June, 363
Immaturity, emotional, allergy and, October, 812
Immune injury, pathogenesis of, October, 584–586
Immune response, normal, cellular reactions in, October, 583–584
Immune system, malignancy and, October, 859 et seq.
Immunity, cellular, phytohemagglutinin and, October, 869
Immunodeficiency diseases, immune systems and malignancy and, October, 862
Immunogens, and antigens, clinical characteristics of, October, 581–583
Immunologic aberrations, in cancer patient, October, 869–871
Immunologic balance, components of, October, 898–899
Immunologic injury, effector mechanisms of, October, 900–901
Immunologic system, components of, October, 885–898
Immunologically mediated diseases, types of, October, 899–900
Immunology, diagnostic techniques in allergy and, October, 885–908
Immunoprognosis, in cancer patient, October, 871–876
Immunosuppression, inadvertent, in cancer therapy, October, 876–878
Immunotherapy, in allergic rhinitis, October, 709
Injection treatment, in inhalant allergy, October, 589
Injury. See also *Trauma.*
immunologic, effector mechanisms of, October, 900–901
pathogenesis of, October, 584–586
Inner ear, disorders of, persistent vertigo and, February, 30
Insomnia, allergic aspects of, October, 809
Internal auditory canal area, facial nerve paralysis and, June, 317
Intracanalicular tumor, radiologic assessment of, June, 345
Intracranial pressure, elevation of, following neck dissection, February, 243
Intracutaneous tests, in inhalant allergy, October, 588
Intranasal suturing, in secondary surgery of nasal septum, February, 80–81
Irradiation. See *Radiation therapy.*
Ischemia, vascular, Bell's palsy and, June, 359

JAW, impairment of function of, following oral cavity resection, February, 228
Jaw winking, in facial paralysis of central origin, June, 419
Jugular bulb, facial nerve surgery and, June, 439

KELOIDS, management of, February, 142–144
of head and neck, revision in, February, 129

LABYRINTH, concussion of, persistent vertigo and, February, 27
Labyrinthitis, purulent, as complication of stapedectomy, February, 20
serous, as complication of stapedectomy, February, 20

Lacrimination, decreased, following facial paralysis, June, 531
excessive, following Bell's palsy, June, 367
test for, in facial nerve lesions, June, 333
Lagophthalmos, with facial paralysis, tarsorrhaphy for, June, 535
Laryngeal edema, as allergic reaction, October, 719
Laryngectomy, occupational problems following, February, 241
partial, recurrence of carcinoma following, February, 172
swallowing and, February, 238
physiologic problems following, February, 240–242
total, recurrence of cancer following, February, 173
Laryngitis, allergic, clinical features of, October, 722
chronic allergic, treatment of, October, 723
Larynx, allergic reactions of, October, 719–723
chronic allergy involving, October, 721
cordal carcinoma of, local recurrence of, February, 172
trachea, and bronchial tree, allergy of, October, 719–734
Lee provocative food test, clinical use of, October, 731
in food and inhalant allergy, October, 692
Leucocyte cytotoxicity test, in diagnosis of food allergy, October, 677
Lid, lower, ectropion of, following facial paralysis, June, 532
"Linea alba," in allergic patients, rhinoplasty and, October, 846
Lip resection, swallowing and, February, 235
Lipstick, cheilitis with, October, 840
Lozenges, and troches, allergic reactions to, October, 837
Lymph node morphology, immunoprognosis in cancer patient and, October, 872
Lymphedema, persistent, following neck dissection, February, 243
Lymphocytes, thymus derived, response to malignancy and, October, 868
Lymphoid malignant disease, aberrations of immune system in, October, 869

MALIGNANCY, immune system and, October, 859 et seq.
phylogenetic evidence for relationship between, October, 860
Malignancy (*Continued*)
immunologic response to, October, 864–869
Malignant disease, lymphoid, aberrations of immune system in, October, 869
nonlymphoid, immunologic aberrations in, October, 770
Malignant tumors, of salivary glands, low grade, recurrence of, February, 167
recurrence of, surgical management of, February, 170
of temporal bone, facial nerve and, June, 389
primary, facial paralysis and, June, 327
Mandibulectomy, postoperative problems in, February, 230 et seq.
Marble bone disease, of temporal bone, facial paralysis and, June, 328
Marcus Gunn phenomenon, in facial paralysis of central origin, June, 419
Mastication, impairment of, following oral cavity resection, February, 228
Mastoid cavity, draining from, causes of, February, 42–44
infection of cavity skin and, February, 43
residual disease and, February, 42
homograft bone obliteration of, February, 50
iliac crest bone obliteration of, February, 50
pedicle flap obliteration of, February, 46–49
complications following, February, 49
posterior canal wall reconstruction of, February, 52–54
revision surgery for, February, 41–56
procedures in, February, 44–51
Mastoid disease, postsurgical, radiologic diagnosis of, February, 265–279
Mastoids, and sinuses, postsurgical disease of, radiologic diagnosis of, February, 251–279
Maxilla, cancer of, recurrent, surgical management of, February, 170
fractures of, revision surgery in, February, 112–116
Maxillectomy, total, use of prosthesis following, February, 230
Measles, nasal cytologic diagnosis in, October, 656
Mediator cells, immunologic system and, October, 889
Medications, oral, preservatives in, allergic reactions to, October, 836–837
Medullary carcinoma, of thyroid, recurrence of, February, 167
Melkersson-Rosenthal syndrome, facial nerve paralysis and, June, 321

Melkersson's syndrome, pathogenesis of, October, 785
Meniere's disease, allergy and, February, 149
historical review of, October, 760–763
pathophysiology of, October, 766–769
Meniere's syndrome, persistent vertigo and, February, 31
Meningioma, facial nerve and, June, 393
Meningitis, following cryosurgery, in cancer of head and neck, February, 201
following stapedectomy, February, 21
Menthol, cheilitis with, October, 840
Mercury stomatitis, clinical aspects of, October, 832
Merthiolate, allergic reactions to, October, 837
Metals, allergic stomatitis with, October, 832–834
Methotrexate, in recurrent cancer of head and neck, February, 208
Middle ear, and eustachian tube, allergy of, October, 749–755
disorders of, persistent vertigo and, February, 29
grafting of, in revision surgery of mastoid cavity, February, 45
infection of, facial paralysis and, June, 323–325
musculature of, developmental anomalies of, June, 302
Middle ear surgery, facial nerve in, June, 461–465
facial paralysis in, June, 462–464
postoperative management in, June, 464–465
Midfacial fractures, allergic aspects of, October, 798
changing patterns of, October, 808
malaligned, revision surgery of, February, 107–117
ophthalmoplegic, pathogenesis of, October, 785
Millard-Gubler syndrome, facial paralysis and, June, 421
Mixed tumors, of salivary glands, recurrence of, February, 167
Mobilization, stapes, as complication of stapedectomy, February, 17
Möbius syndrome, facial paralysis and, June, 423
Motor apraxia, in facial paralysis, June, 416
Mouthwashes, and dentifrices, sensitizers in, October, 830–831
stomatitis with, October, 838
Mucocele, of sinuses, postsurgical, radiologic diagnosis of, February, 262
Multiple sclerosis, persistent vertigo and, February, 32
Myasthenia, allergy and, October, 810
NAIL POLISH, cheilitis with, October, 840
Nasal allergy, February, 148–149
allergic headaches and, October, 795
Nasal cytologic diagnosis, allergy and, October, 638–645
Nasal disturbances, following ablative surgery, February, 218–222
Nasal fractures, depressed, revision surgery in, February, 109
Nasal mucosa, testing of, in allergy to topical anesthetics, October, 831
Nasal polyposis, allergy and, October, 694
Nasal polyps, hyperplastic sinusitis, rhinitis and, October, 712–716
Nasal septum, caudal reconstruction of, February, 83
dorsal reconstruction of, February, 81
secondary surgery of, February, 75–86
intranasal suturing in, February, 80–81
preoperative evaluation in, February, 78–80
surgicoanatomic considerations in, February, 75–77

Stapes mobilization, as complication of stapedectomy, February, 17
Stapes surgery, persistent vertigo following, February, 28
Stellate ganglion block, in herpes zoster oticus, June, 372
Steroid medication, in allergic patients, prior to rhinoplasty, October, 852
in contact otitis, October, 739
Stomatitis, allergic, systemic reactions and, October, 840–842
allergic contact, diagnosis and treatment of, October, 828–838
contact, glossitis, and cheilitis, symptoms and signs of, October, 827–828
hypertrophic or hyperplastic, October, 829
Streptomycin, contact sensitivity with, October, 841
Stricture, of esophagus, and dysphagia, following laryngectomy, February, 241
Stylomastoid artery, ligation of, in cats, facial nerve function and, June, 557–559
Submaxillary salivary gland, secretion of, in facial nerve lesion, June, 336
Supranuclear palsy, progressive, facial paralysis and, June, 422
Sural nerve, in facial nerve grafting, June, 519
Surgery. See also specific operations.
dental, anesthetics in, allergic stomatitis and, October, 837
immunosuppression in cancer patient and, October, 876
in allergy, October, 692–695
otologic, allergy and, October, 693
septal, in allergic patients, October, 854–857
Surgical decompression, in herpes zoster oticus, June, 372
Surgical otolaryngologic practice, allergy practice and, October, 667–680
Suturing, intranasal, in secondary surgery of nasal septum, February, 80–81
Swallowing, problems in, following ablative surgery, February, 234–240
Sweating, gustatory, following neck dissection, February, 245–247
Sympathetic block, cervical, in Bell's palsy, June, 366
Syndrome, Frey's, following neck dissection, February, 245–247
Systemic disease, peripheral facial paralysis and, June, 397–405

TARGET CELLS, immunologic system and, October, 886
Tarsorrhaphy, with facial paralysis, June, 535
Tearing. See *Lacrimation*.
Teflon splints, in rhinoplasty, in allergic patient, October, 856
"Telephone ear," following otoplasty, February, 135
Temporal bone, dehiscence in, June, 310
developmental anatomy of, facial nerve and, June, 300–305
dysplasia of, facial paralysis and, June, 328
fracture of, facial nerve injury and, June, 425–431
management in, June, 428–429
longitudinal, facial nerve injury and, June, 427
transverse, facial nerve injury and, June, 425–427

Temporal bone (*Continued*)
malignant tumors of, facial nerve and, June, 389
trauma to, persistent vertigo and, February, 27
Temporalis muscle transplant, with paralysis of orbicularis oculi, June, 535
Tension-fatigue syndrome, allergy and, October, 813
Tetracycline antibiotics, contact sensitivity with, October, 841
Thymectomy, experimental, immune system and malignancy and, October, 860
Thymus derived lymphocytes, response to malignancy and, October, 868
Thyroid, anaplastic carcinoma of, recurrence of, February, 167
cancer of, distant metastases in, surgical management in, February, 166
surgical management of, February, 163–167
medullary carcinoma of, recurrence of, February, 167
"unrecognized carcinoma" of, February, 166
Thyroidectomy, postoperative problems with, February, 244–245
Titration, in allergy testing, in otorhinolaryngology patients, February, 150
Titration tests, serial dilution, in inhalant allergy, October, 579–615
T.O.E. dose schedule, in inhalant allergy, October, 609
Tongue, carcinoma of, recurrent, surgical management of, February, 170
Tonsil(s), and adenoids, allergic child and, October, 693
diseases of, classification of, October, 914–915
culture in, October, 921
host factors in, October, 919
obstructive, treatment for, October, 916
pathogenesis of, October, 918–923
infections of, treatment for, October, 909–925
carcinoma of, recurrent, surgical management of, February, 170
Tonsillitis, acute, treatment for, October, 915
Trachea, allergy of, October, 723–725
larynx, and bronchial tree, allergy of, October, 719–734
Tracheitis, allergic, treatment of, October, 724
Tracheitis sicca, and chronic bronchitis, following laryngectomy, February, 241
Transplant(s), autogenous, of facial nerve, June, 480
cross-face nerve, June, 527
Transplant(s) (*Continued*)
temporalis muscle, with paralysis of orbicularis oculi, June, 535
Transplantation, experience with, immune system and malignancy and, October, 861
Trauma. See also *Injury*.
accidental, facial paralysis and, June, 325–326
facial paralysis and, June, 423
to facial nerve, June, 484–485
to temporal bone, facial nerve paralysis and, in children, June, 435
persistent vertigo and, February, 27
Troches, and lozenges, allergic reactions to, October, 837
Tubotympanitis, treatment of, October, 750, 752
Tumor(s). See also *Cancer* and *Neoplasm*.
extracanalicular, radiologic assessment of, June, 346
glomus, facial paralysis and, June, 327
immunologic response to, October, 868
intracanalicular, radiologic assessment of, June, 345
involving cerebellum, persistent vertigo and, February, 31
involving hearing, surgery in, February, 10–11
malignant, of temporal bone, facial nerve and, June, 389
metastatic, of petrous bone or internal auditory canal, facial paralysis and, June, 327
nasal cytologic diagnosis in, October, 657
of corticobulbar paths, facial paralysis and, June, 422
of head and neck, immunologic considerations in, October, 859–883
of salivary glands, malignant, low grade, recurrence of, February, 167
recurrence of, surgical management of, February, 170
mixed, recurrence of, February, 167
parotid, biologic characteristics of, June, 483
facial nerve and, June, 387
growth of, facial paralysis and, June, 482
resection of, with preservation of facial nerve, June, 482
primary benign, intratemporal, facial paralysis and, June, 326
primary malignant, of temporal bone, facial paralysis and, June, 327
squamous cell, of head and neck, herpes simplex virus and, October, 867

Tumor antigens, antibody response and, October, 868
cellular response to, October, 868
Tympanic cavity repair, in unsuccessful tympanoplasty, February, 37–39
Tympanic membrane, perforation of, as complication of stapedectomy, February, 15
repair of, in unsuccessful tympanoplasty, February, 36–37
Tympanoplasty, revision, selection of patients for, February, 35–36
unsuccessful, management of, February, 35–40

VASCULAR ACCIDENT, as complication of stapedectomy, February, 21
Vascular disorders, central facial paralysis and, June, 420
peripheral facial paralysis and, June, 400
Vascular headaches, allergic aspects of, October, 798
Verrucous carcinoma, of cheek, February, 173–174
Vertebrobasilar insufficiency, persistent vertigo and, February, 26
Vertigo, allergic aspects of, October, 809
as complication of stapedectomy, February, 21
histamine in, October, 763
in cochleovestibular disorders, October, 757
persistent, February, 23–33
differential diagnosis in, February, 26–32
drug therapy and, February, 30
following stapes surgery, February, 28
history in, February, 23–24
laboratory studies in, February, 25–26
physical examination in, February, 24–25
Vestibular function, and hearing, loss of, following temporal bone resection, February, 247
Vestibular schwannoma, facial paralysis and, June, 326
Vestibular system, facial nerve surgery and, June, 439
Vestibule, reparative granuloma of, as complication of stapedectomy, February, 20
Vinblastine, and 5-fluorouracil, in recurrent cancer of head and neck, February, 210
Viral disease, Bell's palsy and, June, 361
Vocal cord paralysis, following thyroidectomy, February, 244
Vocal resonance, changes in, following ablative surgery, February, 222

W-PLASTY, and zigzag-plasty, in scars of head and neck, February, 124
Wallenberg syndrome, facial paralysis and, June, 421
Weakness, facial, following Bell's palsy, June, 367
Wegener's granulomatosis, facial paralysis and, June, 401
Whealing responses, abnormal, to serial dilution testing, October, 601
to serial dilution testing, October, 595
Wiskott-Aldrich syndrome, genesis of malignant tumors and, October, 863
Wrinkling, pathogenesis of, February, 89

X-RAY EXAMINATION, in disorders of facial nerve, June, 343–355. See also *Radiologic*.

YEASTS, denture sore mouth and, October, 836

Z-PLASTY, in scars of head and neck, February, 127
Zigzag-plasty, and W-plasty, in scars of head and neck, February, 124
Zygomaticomaxillary complex, fractures of, revision surgery in, February, 110–112
